

# EXPLORE THE BEAUTY OF FACTORY-FINISHED LUMBER

SEMI-TRANSPARENT CHESTNUT

## PRE-STAINED FENCE

### What is Gopher Wood?

Gopher Wood is America's premium factory-finished lumber. Each board is pre-stained on all six sides with EXPERT Stain & Seal, ensuring maximum protection, durability, and a flawless finish right out of the bundle.

### Why choose factory-finished lumber over site-stained?

Factory finishing means consistent coverage, no weather delays, and less mess on the jobsite. Unlike site staining, every board is sealed in a controlled environment for long-lasting performance and a professional-grade look.
